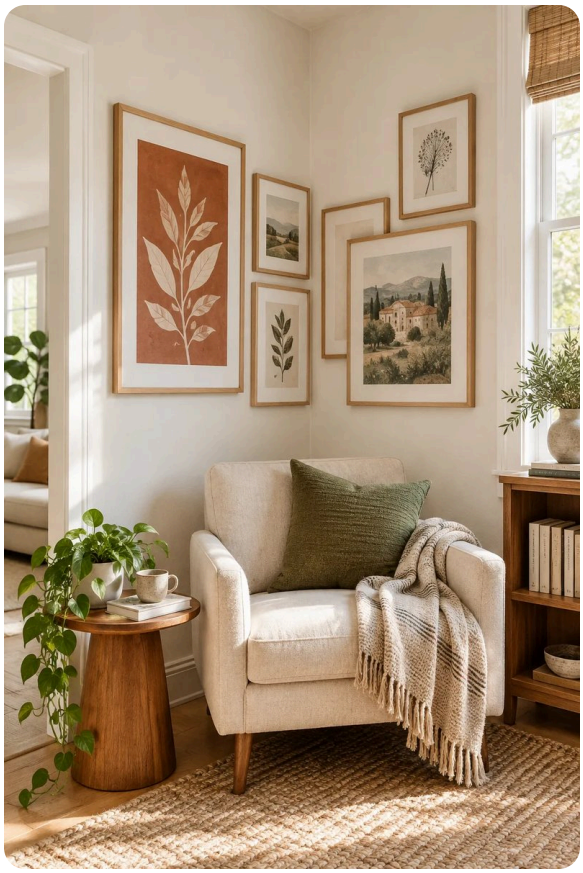
Corner Gallery Spacing Guide

Plan and hang a flawless wrap-around gallery installation.

Master the wrap-around gallery look with mathematically balanced layouts. Use these exact measurements and templates to execute this challenging architectural feature perfectly.



Key Gallery Measurements

1.5-2 in
Tape corner gap guide width

3+ in
Stagger across seam for heights

2-3 in
Negative space between smaller frames

57-60 in
Center height for primary anchor

1 material
Unified frame tone for cohesion

Start with largest art

Place your heaviest visual anchor on the wider wall first. Grounding the arrangement here prevents the entire corner installation from feeling chaotic or untethered.

Flawless Installation Steps

1. **Cut kraft paper** Trace your picture frames onto heavy kraft paper and label each scaled replica template.
2. **Folded paper mockup** Crease specific paper templates bridging the corner to match your exact wall angle.
3. **Mark strike points** Measure exact wire drop on frame backs and transfer directly onto the kraft paper.
4. **Secure the corners** Press a small dot of mounting putty behind bottom corners to prevent shifting.

Anchor & Frame Sizing

Find your row: **Primary Wall Width**

Primary Wall Width	Your pick	Why
48 to 60 inches	32 to 40 in anchor	Pair with 8x10 and 11x14
60 to 72 inches	40 to 48 in anchor	Pair with 11x14 and 16x20
72+ inches	48 to 54 in anchor	Pair with 16x20 and 24x36

Select Your Tape Guide

Find your row: **Wall Surface Type**

Wall Surface Type	Your pick	Why
Cured interior latex	Standard blue tape	Holds firmly, releases cleanly
Fresh paint or matte	Delicate surface tape	Protects fragile wall finishes
Delicate wallpaper	Drafting tape	Excellent low-tack alternative

On-Site Layout Checks

- ○ Evaluate natural light to determine the dominant viewing angle.
- ○ Wipe corner with a lightly damp microfiber cloth before taping.
- ○ Distribute dark colors and heavy elements equally between both walls.
- ○ Match matting style and color across the intersection.
- ○ Use a laser level to verify vertical columns remain plumb.
