Tip-Out Shoe Cabinet Fit Sheet

Calculate exact clearances to maximize your narrow hallway storage.

Reclaim your floor space and organize your daily footwear with a floating tip-out cabinet. Use this guide to plan your exact measurements before you drill.

Critical Dimensions

17 cm
Cabinet depth preventing hallway traffic blocks

90 cm
Minimum walking space past closed flaps

20 cm
Floor gap for daily sneaker parking

1 cm
Vent hole diameter in back panel

3 cm
Depth for watertight slate tray base

2-4 cm
Diameter for medium river pebbles

Shoes Stand on Tiptoe

This geometric trick lets the structured front bear the resting weight. It prevents unnatural creasing, extends the lifespan of expensive dress shoes, and fits adult sizes in a shallow footprint.

Configure Your Flap Compartments

Find your row: **Your Footwear Type**

Your Footwear Type	Your pick	Why
Low-top sneakers	Keep divider in	Slides in without crushing padded tongues
Leather loafers	Keep divider in	Rests securely on sturdy toe boxes
Ankle boots	Remove divider entirely	Provides the necessary extra vertical clearance
High-top sneakers	Remove divider entirely	Transforms into a single spacious bin

Mounting & Modifying

1. **Anchor the Cleat** Hang on a French cleat using heavy-duty structural screws to securely support heavy footwear loads.
2. **Drill for Airflow** Drill vent holes along the top edge of each compartment for maximum thermal updraft.
3. **Set the Pebble Tray** Place directly beside the daily-pair gap to elevate rubber soles and catch drips from boots.

Pre-Installation Clearances

- [ ] Measure your front door swing radius and mark baseboards with painter's tape.
- [ ] Check existing baseboard height and depth to ensure a flush cabinet fit.
- [ ] Locate the exact center of your structural wooden wall studs.
- [ ] Test the open-flap walking clearance in your daily traffic path.
- [ ] Check product packaging for your specific cabinet's structural weight ratings.

Entryway Measurements

Enjoy your beautifully organized, clutter-free entryway and that wonderful feeling of extra space!
