Before You Buy or Install

- Measure the exact length and width of your existing crib mattress.
- Check the ceiling hook's packaging for the structural weight rating.
- Map out an unobstructed path from the bedroom door to bed.
- Verify your chosen puck lights are remote-controlled, not manual push-lights.
- Ensure dangling electrical cords are secured in rigid plastic concealers.

Adapting for Your Room

Find your row: **Your existing items**

Your existing items	Your pick	Why
Hollow drywall without studs	Use heavy-duty drywall anchors	Secures heavy sconce against pulling
Tall dressers or bookshelves	Install heavy-duty nylon straps	Provides vital protection against tipping
Frames have glass inserts	Replace with shatterproof acrylic	Prevents dangerous broken glass accidents
