Sill Styling Sheet

Confidently arrange decor that catches the light without blocking your view.

Transform your empty window ledge into a beautiful, intentional display. Use this fit chart and placement plan to arrange plants and ceramics perfectly.

Key Clearances & Dimensions

1 in
safety margin from front lip

1/8 in
cork pad thickness under pots

2+ in
root ball depth for vines

2 in
clearance from window hardware

3 shapes
tightly clustered for ceramic trios

Trail One Over the Lip

Soften the rigid horizontal line of the window architecture by anchoring the far left side with a trailing pothos or string of pearls spilling directly over the front edge.

Maximum Object Fit Chart

Find your row: **Actual Sill Depth**

Actual Sill Depth	Your pick	Why
4 in (Standard Narrow)	3-inch max base	Small bottles, vines
6 in (Classic Medium)	5-inch max base	Herb pots, trios
8 in (Deep Historic)	7-inch max base	Large vases, books

The Sun Styles Half Plan

- [ ] Place tallest anchor directly at the vertical mullion.
- [ ] Lay a mirror tile flat under a tight trio.
- [ ] Position transparent amber glass in the bright mid-pane.
- [ ] Slip hidden cork pads under porous terracotta pots.
- [ ] Group items into distinct zones to frame the outdoors.

Check Before You Style

- Measure depth from interior glass pane to rounded front lip.
- Verify a clear hand-path to latches, cranks, or tracks.
- Check for cold drafts before placing sensitive tropical plants.
- Note western exposure to maximize afternoon sun path glow.

Window Measurements & Notes

Enjoy your beautifully styled, sunlit window ledge every single day!
