The Hidden Vase Trick

Place a slim, clear cylinder vase upside down inside your largest jars. Pour candy only into the outer ring to create a brimming illusion.

● Styling Your Tiered Foundation

- 1 Hide sturdy supports** Place cardboard box risers directly on the bare table to stagger heights.
- 2 Drape the cloth** Cover the hidden boxes with a crisp white tablecloth for an architectural presence.
- 3 Stash the refills** Keep sealed backup bags in a shallow basket hidden beneath the draped table skirt.
- 4 Arrange the jars** Mix tall slender silhouettes with wide squat bowls so back-row jars remain fully visible.
