

Cathedral Ceiling Cozy-Up Schedule

Your two-day plan to make a soaring vaulted room feel warm and intimate.

Map out every measurement beforehand to save yourself exhausting ladder trips. Gather your tools on Friday to ensure a smooth transformation.

● Essential Room Heights

Top of frames

Trim at door height

Clockwise low

Reverse fan, warm toes

7 ft (84 in)

Pendant bottom at 7 ft

Floor corner

Uplight behind the fig

57 in

Art center at 57 in

Hide Upper Drywall Seams

Always use a dead-flat paint finish on the upper white section to hide the inevitable tape joints that run along a sloped ceiling.

● The Weekend Schedule

- 1 Saturday Morning: Paint Split** Apply warm terracotta below and soft white seamlessly up the sloped vault.
- 2 Saturday PM: Install Trim** Secure the continuous painted strip to wall studs to establish a grounded architectural boundary.
- 3 Sunday AM: Hang Decor** Suspend the woven fixture on its chain and center your framed gallery at seated eye level.
- 4 Sunday PM: Adjust Lighting** Switch downrod blades to push warm air down, and tuck plug-in illumination behind the plant.
- 5 Sunday Night: Layer Textures** Add a chunky jute rug and draped throw blankets to absorb acoustic echo and soften lines.

● Choose Your Cozy Palette

Find your row: **Your room's style**

Your room's style	Your pick	Why
Moody Charcoal	Natural oak beams	Draws eye up to warm vault
Coastal Blue	White shiplap ceiling	Contrasts bright texture
Soft Sage	Oversized rattan pendant	Complements organic texture
Warm Minimalist	Tone-on-tone beige	Blurs edges for cocoon feel
Modern Farmhouse	Bold black trim	Establishes cozy human scale

● Friday Equipment Checks

- Check your specific peak height for the right A-frame extension ladder
- Test your telescoping paint roller extension pole for full reach
- Verify your painter's tape is designed for delicate surfaces
- Ensure your laser level can mark a continuous horizontal line

● Project Notes & Measurements

Enjoy your beautifully grounded, cozy retreat by Sunday evening!
