

Nail-Free Hanging Supply List

Build a lavish, damage-free holiday entrance using tension and weight.

Securely mount heavy garlands and wreaths without destructive hardware. This guide ensures your door frame remains completely pristine all season.

● Key Installation Specs

1/4 turn

Tension rod frame tightening after freeze

1-inch

Pipe insulation core preventing scratches

1 small bag

Hidden battery pouch behind wreath bow

1 wide ribbon

Felt-backed wreath hanging over door

10 pounds

Sandbags in weighted base pots

12 inches

Spacing between heavy-duty zip ties

45 degrees

Angle to bend branch tips outward

Prep for Maximum Grip

Wipe the painted door jamb thoroughly with rubbing alcohol before placing the rod to remove invisible oils and maximize the slip-free rubber grip.

● Building the Frame

- 1 Prep and Place** Clean the jamb, then position the main weight-bearing rod firmly inside the top doorway.
- 2 Pad and Fluff** Slip foam over the metal to protect paint, then fluff greenery tips for maximum fullness.
- 3 Attach and Hide** Secure fluffed branches with zip ties, snip the excess tails, and bend foliage over the plastic.
- 4 Anchor the Base** Drape garland ends into planters and drop sealed ballast bags inside to prevent violent swinging.

● The Nail-Free Supply List

- ☐ Heavy-duty black tension shower rod
- ☐ Foam pipe insulation lengths
- ☐ Heavy-duty black zip ties
- ☐ Warm white outdoor LED string lights
- ☐ Burlap pouch for battery packs
- ☐ Adhesive craft felt strips
- ☐ Wired ribbon, floral wire, and accents
- ☐ Heavy floor planters and sealed sandbags

● Sizing Your Tension Rod

Find your row: **Doorway Width**

Doorway Width	Your pick	Why
30 to 36 in	28 to 48 in rod	Keeps expansion comfortably mid-range
38 to 42 in	36 to 54 in rod	Prevents internal spring from bowing
44 to 60 in	42 to 72 in rod	Maintains overall structural stability

● Holiday Decor Notes

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Enjoy your beautifully seamless, damage-free holiday entrance all season long!

● Checks Before You Build

- Measure the exact width of your top door jamb.
- Check rod packaging for the weight rating matching your greenery.
- Test door clearance to ensure the protected frame glides smoothly.
- Verify battery boxes are weatherproof outdoor-rated, not indoor packs.
- Confirm your indoor anchor hook supports the hanging ribbon.
