No-Damage Hanging Guide

Secure your lush holiday porch display without a single screw.

Transform your entryway with reliable compression and friction mechanics that keep your exterior trim entirely pristine. Build a professional, seamless display that withstands winter gusts beautifully.

Key Display Dimensions

At least 2 in extra
Rod extension beyond resting width

Every 12 in
Zip tie spacing along the shaft

Two 9-foot lengths
Double-layered pine for thick volume

2/3 door width
Wreath size for balanced door proportions

2.5-inch wide
Over-door ribbon tie prevents scratches

Deep lower branches
Hidden battery box placement

4 in
Clearance between planters and door hinges

4 feet
Height of vertical white birch poles

Freezing Weather Maintenance

Metal contracts in the cold. Check your tension rod tightness whenever temperatures drop significantly below freezing to guarantee your heavy greenery stays safely elevated.

Top-Down Installation

1. **Protect the Paint** Wipe jambs with degreaser and apply clear silicone tape to the tension rod contact points.
2. **Secure the Anchor** Extend the tension rod support tightly inside the frame; verify with a firm downward tug.
3. **Build the Garland** Twist garlands together, weave in lights, and cinch to the rod using dark green zip ties.
4. **Fluff and Style** Spend twenty minutes pulling individual pine tips outward to conceal the center wire completely.

Entryway Checks

- ◯ Measure the top inner width of your door frame.
- ◯ Check the jamb depth to ensure the tension rod fits flush.
- ◯ Verify the frame surface is completely smooth and free of debris.
- ◯ Ensure planter drainage holes are clear before pouring in the sand.
- ◯ Check the weight rating on your outdoor-rated shower tension rod.

Sand-Weighted Base

Find your row: **Planter Height**

Planter Height	Your pick	Why
24 inches	30 pounds of sand	Anchors standard tall black planters
36 inches	50 pounds of sand	Secures top-heavy winter storm setups

Project Notes

Enjoy your magical, damage-free entryway straight through the new year!
