Cut With Detail Scissors

Cut complex banner shapes with sharp detail scissors after printing to avoid jamming your electronic cutting machine with thick magnetic material.

● Hardware For Your Decor

Find your row: Your decoration type

Your decoration type	Your pick	Why
Heavy name banners	Full magnet sheets	Keeps text completely flush
Paper cutouts	Magnet tape strips	Secures outer edges flat
Hoop wreaths	Magnet hook for wreath	Supports top center hanging
Lanyards	Small peg hooks	Allows daily grab-and-go
String lights	Mini clip magnets	Frames the door border

● Embarkation Day Setup

- 1 **Hang the wreath** Place your heavy-duty magnetic hook at the top center of the door.
- 2 **Smooth the banner** Position your large printed magnet banner directly below the wreath hook.
- 3 **Frame the number** Slide your custom cutout perfectly around the permanent raised metal plaque.
- 4 **Arrange the cutouts** Place smaller taped pieces around the bottom half to avoid knocking them down.
- 5 **Pack up early** Remove all magnets on the final night before suitcases crowd the hallway.

● Cabin Door Checks

- ☐ Verify your specific ship uses metal doors rather than wood veneer.
- ☐ Measure the ship's permanent signage to ensure your frame fits perfectly.
- ☐ Check packaging for the right magnetic pull rating for your wreath.
- ☐ Test your finished wreath on your home refrigerator to preview its hold.
- ☐ Check for thick fire-retardant paint that might require your backup hardware.

● Hardware Inventory

- ☐ Document folder packed in middle of suitcase
- ☐ Full magnet sheets for flush banners
- ☐ Heavy-duty magnet tape for paper cutouts
- ☐ Magnetic hooks for wreaths and lanyards
- ☐ Extra backup hardware for thick door paint
