cardboard riser box under the hoodie

8 ounces
clear glass jar for decanted eggs

6 inches
bamboo skewer to elevate mini cosmetics

Anchor Fragile Items

Keep heavy glass jars resting directly on the hidden box, rather than letting them float on the unsupported outer fabric, to ensure the entire basket remains stable.

Build the Boutique Display

1. **Hide a riser box** Place a sturdy cardboard box upside down in the bottom center of the tote bag.
2. **Fold hoodie as grass** Drape the square body over the riser and wedge the sleeves down into the corners.
3. **Position mid-sized essentials** Wedge sunglasses or small notebooks against the back wall before adding tiny cosmetics.
4. **Skewer minis up high** Tape small cosmetics to bamboo skewers and push deep into fabric folds using invisible clear tape.
