

Luxury Bedroom Sizing Sheet

The exact proportions to give your bedroom a boutique hotel feel.

A luxurious room starts with perfect scale. Use these exact measurements to arrange and style your space.

● Key Bedroom Measurements

60 cm

rug overhang beyond bed sides

5 cm

larger inserts than pillow covers

140 cm

sconce backplate height from floor

15 cm

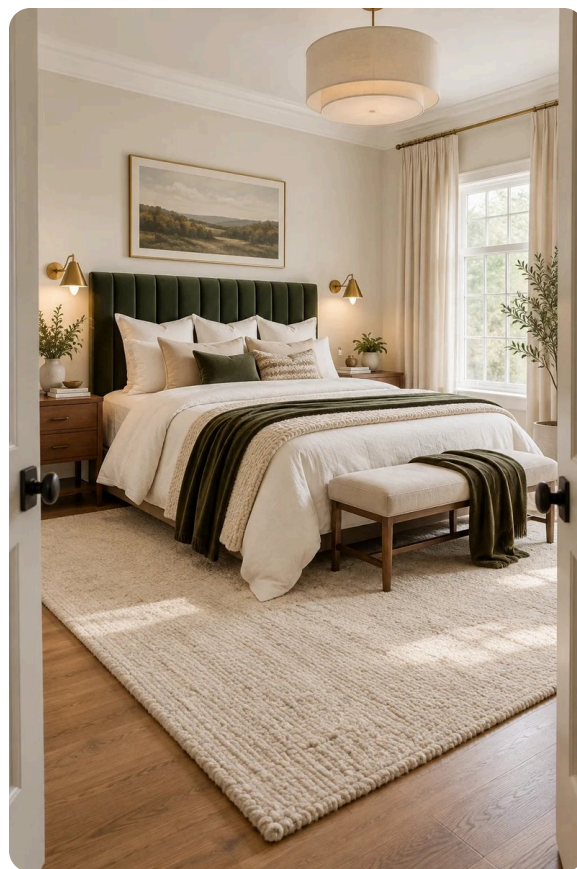

sconce outward from headboard edge

130 cm+

headboard height to ground room

2700 K

warm sconce bulb temperature

The Perfect Duvet Drape

Tuck the excess length of your oversized duvet tightly under the mattress foot to maintain a tailored look while letting the sides flow freely.

● Find Your Perfect Sizing

Find your row: **Your space or bed**

Your space or bed	Your pick	Why
Queen mattress	King duvet	Covers mattress sides completely
Twin, full or king	Oversized duvet	Creates a cascading drape
Queen bed floor	8x10 or 9x12 rug	Provides an expansive foundation
Window frame	Rod wider than frame	Allows panels to open fully

● Check Before You Install

- Measure ceiling height to place the curtain rod just below it.
- Verify headboard is over 120 cm so shams cannot hide it.
- Check if your frame requires a box spring to avoid awkward gaps.
- Consult a professional to safely wire sconces and dedicated dimmer switches.

● Your Room Measurements

Enjoy your beautifully proportioned, expertly styled new bedroom retreat!
