

Gender Reveal Balloon Decor Guide

Your exact balloon counts and pro assembly steps for a lush garland.

Build a professional organic balloon garland and a flawless tiered reveal box. Use this chart to buy the exact mix of sizes for your space.

● Pro Techniques

4-balloon quads

Tie them in foursomes for stability.

1 small release

Burp them like babies before tying.

2 nested layers

Nest two, mix a shade securely.

3 solid seconds

Glue-dot the 5-inchers into structural crevices.

2-inch steps

Stagger box ribbons for tiered floats.

Divide by Three Colors

Split your total balloon counts evenly across your pink, blue, and cream palette. Include your double-stuffed pairs directly in the standard calculation!

Balloon Count Chart

Garland Feet	5-inch Minis	11-inch Standard	18-inch Jumbo
6	30 balloons	45 balloons	3 balloons
8	40 balloons	60 balloons	4 balloons
10	50 balloons	75 balloons	5 balloons
12	60 balloons	90 balloons	6 balloons

Divide totals evenly across pink, blue, and cream. Count double-stuffed pairs as 11-inch Standard.

Elevated Color Palettes

Find your row: Your reveal venue

Your reveal venue	Your pick	Why
Living room mantel	Sand and gold	Sophisticated neutral boho fireplace
Evening outdoor patio	Navy, silver, foil stars	Embrace a celestial night
Bright sunroom	Peach, lemon, sage	Fresh citrus garden vibe

Check Before You Build

- Measure your exact venue space to determine total garland feet.
- Check your low-temperature glue dots for latex compatibility.
- Verify the reveal box floor can support the heavy weight.

Assembly & Reveal Box

- 1 Build the Base** Twist tight pairs together and slide directly onto monofilament fishing line, pushing firmly.
- 2 Anchor the Jumbos** Tie the largest balloon necks directly into the core structure during initial assembly.
- 3 Hide the Line** Apply adhesive to the minis and press into natural crevices to hide the backbone.
- 4 Prep the Box** Anchor staggered ribbons to a heavy weight taped securely to the actual floor.
- 5 Float the Bouquet** Ensure helium is fully inflated and rest the lid lightly without taping shut.
