Round Up for Abundance

Always round your calculated quantities up to the nearest whole package size so you never run out of core ingredients during peak party hours.

● Assembly Order

- 1 Anchor bowls first** Place ceramic vessels asymmetrically for messy ingredients to dictate the flow and protect delicate items.
- 2 Pre-cut hard cheeses** Slice completely through and push back into the original block shape for completely effortless grabbing.
- 3 Glass-rim salami rose** Fold circles halfway over a wine glass rim, overlap tightly, and flip firmly onto wood.
- 4 Keep wet foods apart** Cluster juicy elements safely in ramekins or dedicated zones away from your crisp dry carbohydrates.
- 5 Fill gaps with herbs** Tuck fresh rosemary sprigs and nuts into every crevice until absolutely zero empty wood shows.
