Condition Fresh Greenery

Soak cut cedar stems in room-temperature water for four hours before installation, and mist them every two days to prevent browning and needle drop before Christmas.

● The 6-Step Fill Order

- 1 Twist the Faux Base** Fluff tips and spiral two budget pine strands together, securing with zip ties every 12 inches.
- 2 Wind Lights Deep Inside** Push warm-white micro-lights deep into the core to hide wires and illuminate branches from within.
- 3 Tuck Fresh Cedar Sprigs** Slide 8-inch soaked cedar and eucalyptus stems cut at 45-degree angles into the twisted core.
- 4 Weave the Velvet Ribbon** Pinch 2.5-inch wired cranberry ribbon into the branches every 14 inches for billowing S-curves.
- 5 Add Picks and Accents** Insert contrasting textures like silver-dollar eucalyptus, white birch, antique brass bells, or vibrant red berries.
- 6 Set the Asymmetric Drop** Anchor an 18-inch cascade on the right with an adhesive hook, keeping it clear of heat.

● Adapt to Your Space

Find your row: **Your Mantel Setup**

Your Mantel Setup	Your pick	Why
Mantel width	2x length in lights	Weave deep without pulling wire taut
Flat wall space	2 twisted budget strands	Builds a thick, self-supporting 3D cylinder
Active heat zone	Anchor drop safely away	Prevents dangerous fire hazards in winter
Empty left hearth	Basket of birch logs	Balances the heavy right-side cascade
Empty left shelf	3 tall brass candlesticks	Draws eye up to balance drape

● Pre-Shopping Checks

- Measure your mantel width from edge to edge.
- Check top shelf depth to ensure the twisted base fits.
- Locate the nearest power outlet for the 100-bulb micro-lights.
- Test micro-light strands to verify every bulb illuminates brightly.

● Holiday Styling Notes

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Enjoy your beautifully styled, glowing holiday mantel all season long!
