● The Restyle Sequence

- 1 Clear the Deck** Remove all items, wipe bare counter and grout with a damp microfiber, and dry completely.
- 2 Gather Owned Items** Pull ambient lighting, a pedestal, wood backdrops, and fresh citrus to your dining table.
- 3 Build Vertical Anchor** Tuck the hall lamp + plug timer deep into the corner; stagger wooden boards, tallest back.
- 4 Place Front Layers** Add the shallow fruit bowl and the cake stand: lift, wipe setup for daily oils.

*Protect your delicate stone
Attach four small felt pads to the bottom rim of the porcelain pedestal to prevent scratching the marble when sliding it out of the way.*
