Planter-Bench Measurement Sheet

Map out built-in seating to host brunch in a tiny courtyard.

Pushing primary seating to the boundary walls instantly opens up a small garden. Use these dimensions to comfortably fit a round dining table for six.

Essential Courtyard Dimensions

45 cm
Rendered L-shaped wall height

35–40 cm
Oak cap seating depth

60 cm
Linear seating space per guest

60 × 120 cm
Pale porcelain floor slabs

1.8 m
Clear stem height for tree

9 plants
Repeated feather grass variety

Visual Expansion Trick

Run your large-format floor slabs lengthwise away from the house toward the back fence to drastically reduce visible grout lines and draw the eye outward.

Bench Seating Capacity

Find your row: **Usable Wall Length**

Usable Wall Length	Your pick	Why
1.2 meters available	Seats 2 guests	Based on standard guest spacing
2.4 meters available	Seats 4 guests	Leaves room for the table
3.0 meters available	Seats 5 guests	Maximizes the longer boundary wall
3.6 meters available	Seats 6 guests	Fits your entire brunch party

Site & Layout Checks

- [ ] Measure equal intervals behind the bench for your continuous grass row.
- [ ] Check that the tree canopy starts well above seated head height.
- [ ] Ensure fence posts are stable before mounting a fold-down buffet shelf.
- [ ] Check bracket packaging for outdoor ratings and heavy ceramic load capacities.
- [ ] Seal the oak serving shelf with exterior UV oil against weathering.

Project Notes

Enjoy lingering over coffee in your beautifully designed, space-saving courtyard oasis!
