

Purple Bedroom Weekend Schedule

Your Friday-to-Sunday plan for flawless color-drenching and layered styling.

Transform your space by Sunday night with this complete painting and styling schedule. Use these steps to select the perfect plum and execute a seamless color-drenched finish.

● Standard 12x12 Room Supplies

2 gallons

Premium wall paint

1 gallon

50% strength ceiling paint

1 quart

Satin trim enamel

3/8-inch

Roller nap for smooth drywall

3 tones

Plum linens for styling

9 pm

Time to judge paint swatches

Judge Swatches at 9 PM

Tape two 12x12-inch painted swatch cards near your bedside lamp and check them at exactly 9 pm to ensure the color won't look black at night.

● Friday & Saturday Paint Plan

- 1 Friday Prep** Fill holes, sand patches, and tape the ceiling line and baseboards to save time.
- 2 Saturday: Ceiling** Cut in edges with an angled brush, then roll the 50% strength ceiling paint.
- 3 Saturday: Walls** Apply wall paint in overlapping W-shaped sections for even pigment distribution.
- 4 Saturday: Trim** Paint baseboards and casings plum, then wrap wet brushes in plastic for the fridge.

● Window Direction Color Chart

Find your row: **Primary Window**

Primary Window	Your pick	Why
North-facing	Red-based purple	Prevents walls from looking gray
South-facing	Blue-based purple	Handles warm afternoon sun well

● Sunday Finish & Style Plan

- 1 Second Coat** Wait until the first layer is completely dry to prevent pulling off semi-wet paint.
- 2 Peel Tape Damp** Remove painter's tape at a 45-degree angle while the final coat is slightly damp.
- 3 Touch Up Baseboards** Use a tiny artist's brush to fill microscopic missed spots along the color-drenched trim.
- 4 Layer the Bed** Stack a mid-tone plum duvet, aubergine throw, and lilac pillowcases for a 3D focal point.
- 5 Add Warm Accents** Install warm unlacquered brass hardware and position matching table lamps for a flattering glow.

● Pre-Painting Room Checks

- Check if baseboards need bonding primer for raw wood or high-gloss.
- Unscrew all plastic wall plates for crisp edges around electrical outlets.
- Secure heavy canvas drop cloths tightly against baseboards to protect floors.
- Place a small box fan in the doorway for proper ventilation.

● Project Notes

Enjoy your moody, enveloping atmosphere and a perfect night of sleep.
