

Rental Bedroom LED Placement Sheet

Plan and install renter-safe, hotel-quality ambient lighting.

Transform your rental into a high-end retreat with the right LED placement strategy. Use this sheet to map out your glow zones, measure your furniture, and mount everything safely.

● Key Lighting Specs

2700 K

Color temp for warm, rich tones

90+

CRI rating for accurate fabric colors

45°

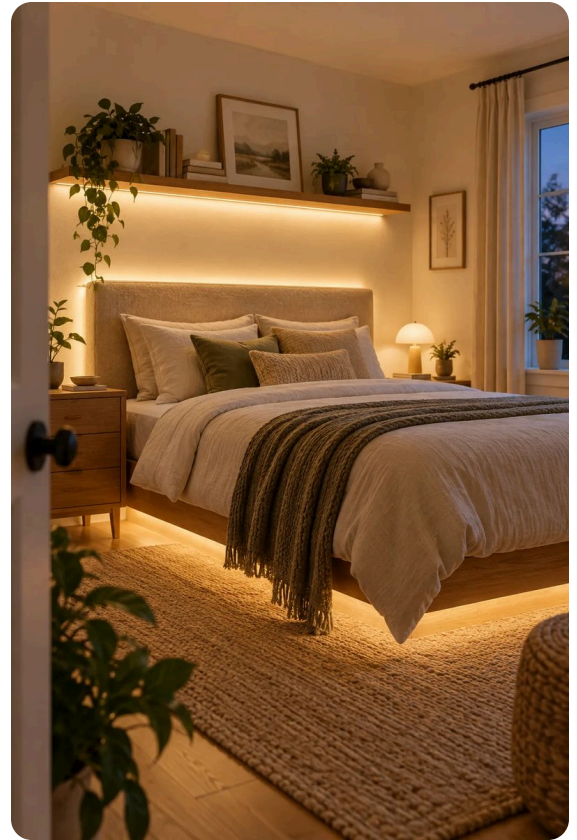

Channel angle facing wall behind headboard

8 cm

Wall gap for headboard halo glow

10 cm

Inset under bed for floating illusion

Hide the raw LED dots

Always use a channel or frosted diffuser cover to blend individual diodes into one continuous line, preventing a stark look and maintaining a seamless, high-end hotel illusion.

● Renter-Safe Mounting

- 1 Clean the furniture** Wipe the mounting surface thoroughly with rubbing alcohol to ensure the adhesive strips hold securely.
- 2 Press adhesive firmly** Apply heavy-duty removable strips to the furniture, pressing firmly in place for at least 30 seconds.
- 3 Wait before attaching** Wait exactly one hour before attaching the heavy aluminum channel so the adhesive cures completely.

● Zone Placement Guide

Find your row: **Your glow zone**

Your glow zone	Your pick	Why
Headboard	Angled channel, back edge	Directs wash, avoids harsh lines
Floating shelf	Frosted channel, flush bottom	Softens light, hides raw diodes
Bed frame	Standard flat, underneath	Maximizes floor pool, hides hardware

● Measure Before You Buy

- Measure your headboard's hidden back edge for angled channel length.
- Measure your floating shelf bottom length for frosted channel sizing.
- Measure your bed frame inner perimeter for flat channel length.
- Check furniture surfaces for heavy-duty removable adhesive compatibility before attaching.

● Mounting Shopping List

- ☐ Warm incandescent-style LED light strips
- ☐ Angled aluminum corner channels
- ☐ Frosted diffuser channels for shelves
- ☐ Standard flat aluminum channels
- ☐ Heavy-duty removable adhesive strips
- ☐ Rubbing alcohol for surface prep
- ☐ Dimmer switch for brightness control

● Project Notes

Enjoy your cozy, high-end bedroom retreat without risking your rental deposit!
