Water Management

Mix one packet of floral food into room-temperature water. Fill three-quarters full before arranging, leaving a quarter-inch of space to prevent overflows as stems displace water.

● Building the Centerpiece

- 1 Prep the ceramic vessel** Wash with hot soapy water and dry completely before applying adhesive to ensure a watertight seal.
- 2 Build the tape grid** Create a checkerboard pattern across the inner rim and wrap a final perimeter piece securely.
- 3 Add trailing greenery** Insert foundational greenery sharply downward around the perimeter so leaves spill naturally onto the linen.
- 4 Create an inner dome** Crisscross shorter, sturdy greenery through the center to establish a supportive framework for heavier flowers.
- 5 Tuck focal blooms low** Place heavy blooms near the

● Stem & Supply Count

6-Foot Tables	Shallow anchor bowl	Clear floral tape	Trailing greenery	Large focal blooms	Secondary filler	Unscented taper candles
