Anchor With Heavy Base Items

Always place the heavy glass bottles flat against the back panel to create a rigid internal spine. This ensures the fabric stands perfectly straight on the hotel desk.

Assembly Line Factory Process

1. **Prep the components** Unfold all totes, apply bottle labels at once, and stuff the muslin recovery pouches.
2. **Anchor the base** Pack heavy glass bottles flat against the back panel to create a rigid spine.
3. **Layer sweet and salty** Nestle local sweet and salty snacks directly in front of the clear water bottles.
4. **Add paper goods** Slide the heavy cardstock schedule down the front panel so it is seen first.
5. **Tie the ribbon** Secure double-faced satin ribbon to the front left handle with a classic square knot.
